A Combination Of Business & Tech!

Hey there! My teenage went entirely in the Social Media Boom and hence when life wanted me to start something, I chose Social Media itself, started Via Creative Tech & Via Tech Media with two of my friends. We turn any normal business into a BRAND! In the 3rd year of high school, I embarked on the journey to various entrepreneurial ventures but faced criticism from almost everyone I knew. I have been criticised by the society at all stages of my life. I have seen ups and mostly downs and one thing I can say... "God shuffled the cards, dealt me a hand with impossible odds, Put an obstacle course up and look how I will conquer them all."
